About me

Computer Science graduate **specializing in Data Science, AI, and Big Data.**

Skilled in **Java, C++, and Python**, with hands-on experience in developing desktop applications, implementing algorithms, and building client-server systems.

Seeking an **entry level software engineer role** to apply strong technical and analytical skills in a professional environment.

Education

B.Sc. in Computer Science, The Academic College of Tel-Aviv Yaffo

Relevant Courses: OOP, Data Structures, Algorithms, Machine Learning, Operating Systems, Big Data (AWS)

Projects

NLP Question Answering System - SQuAD 2.0 (Python, Transformers)- [GitHub](#)

Developed an extractive QA system combining RoBERTa-based models, context selection, and rule-based validation to detect unanswerable questions. Achieved ~65 F1 and ~62 Exact Match on SQuAD 2.0 evaluation.

S-Emulator IDE (Java, JavaFX, JAXB, Tomcat)- [GitHub](#)

Built a full-stack IDE for XML-based programs with GUI execution, dynamic instruction expansion, and server-side validation using a client-server architecture.

Donkey Kong Game (C++) - [GitHub](#)

Developed a 2D object-oriented game engine, implementing gameplay mechanics, inheritance hierarchy, and interactive game logic.

Perceptron (Python)- [GitHub](#)

Created a machine-learning classifier from scratch, implementing the Perceptron algorithm using linear-algebra principles.

Experience

Telemarketing Representative, The Academic College of Tel-Aviv Yaffo | 2024 – Present

Matched candidates with programs and met performance goals using CRM tools.

Insurance Coordinator, Harel Insurance | 2022

Handled international claims and ensured accurate processing.

Military Service

Shooting Instructor (Armored Corps, IDF) | Sergeant | 2020 – 2022

Trained over 2,000 soldiers and led professional firearm instruction sessions.

Developed leadership, discipline, and instructional skills under high responsibility.

Technical Skills

Languages: Java, C++, C, Python, SQL, JavaScript

Frameworks & Tools: JavaFX, Tomcat, Git, GitHub, Jupyter, Linux

Concepts: OOP, Machine Learning, Client-Server Architecture

Soft Skills

Fast learner • Responsible • Team player • Strong work ethic • Curious • Independent • Communicative

Languages

Hebrew – Native | English – Fluent
